CORRUGATED RAISED GARDEN BEDS

North Country Steel corrugated raised garden beds are a termite free alternative to timber garden beds, that ensure no splitting, cracking or rotting.

You can enjoy gardening even more with these back saving garden rings, with the ease of placement anywhere in your garden.

Add style and character to your already existing garden with slim and round profiles, from small to larger sizes.

With a full range of colorbond colours available for your selection.

Sizes and profiles to suit your gardens every need.

Specific sizes can be made, call us for a quote today!

SLIM PROFILE

The slim profile is exceptional for ensuring you can reach across your garden bed without having to stretch.

They fit in those limited yard spaces and maximise your garden area.

ROUND PROFILE

Round garden beds are a great option for those wasted spaces in your garden.

Grow your vegetables in style, with height options available for those deep rooted plants.

HERB / SMALL PROFILE

Haven't got the space or yard room for a garden bed? Herb/vegetable garden beds are the answer to your problem.

They are ideal for balconies and or patios/verandahs and can be made with an optional base to keep these areas clean and tidy.
